**Facts & Figures**

**2022 at a glance**

**Our organisation**
- **541** Number of staff
- **49M€** Total budget
- **32%** Men
- **68%** Women
- **47** Nationalities

**Knowledge creation**
- **585** Number of publications
- **241** Ongoing research projects
- **17** Thesis defended

**Knowledge transmission**
- **1,360** Students trained
- **2** New patents submitted
- **4** Capacity strengthening courses

**Knowledge application**
- **8,632** Media impacts
- **9** Policy Briefs & Papers
- **76** Outreach Activities

**Highlights**

- **A year of breakthroughs and successes**

**Better Together**
Collaboration is the cornerstone of ISGlobal’s Education and Training approach.

**More Bang for Your Buck**
Immunology and data science came together to reveal that the RTS,S malaria vaccine may offer broader protection than thought.

**Plan, Prepare, Prevent**
Contributing to preparedness plans at the local, regional and global levels has become a key priority for the Policy and Global Development team.

**Shining a LAMP on Many**
The ChagasLAMP consortium is looking for faster and more effective ways of diagnosing Chagas disease.

**The Double Risk of Being an Adolescent**
Pregnant adolescents in sub-Saharan Africa are more likely to contract malaria than adult women.

**The Way Out**
More than 350 experts from over 100 countries reach a consensus on how to end COVID-19 as a public health threat without exacerbating the socio-economic impact or putting the most vulnerable at risk.

**Turn Down the Noise!**
60 million people in European cities are exposed to noise levels that are harmful to health.

**Screens and Teens**
The largest case-control study to date finds no link between radiation from mobile phones and brain tumours in young people.

**Telltale Signatures**
Environmental exposures during early life are associated with certain molecular profiles in childhood.

**Groovy Neighbourhoods**
The urban environment can affect physical activity in people with chronic obstructive pulmonary disease (COPD).

**More Bang for Your Buck**
Immunology and data science came together to reveal that the RTS,S malaria vaccine may offer broader protection than thought.

**Catalysing Much-Needed Action**
EU-funded CATALYSE project aims to guide and accelerate climate action to protect public health.

**Better Together**
Collaboration is the cornerstone of ISGlobal’s Education and Training approach.
